Dear Friends,

We ask you to support the aid to the victims of war in Ukraine through our Foundation. Although we are a small foundation, we have already managed to organize the shipment of over 100 tons of aid - six truckloads to Ukraine.

Together with our partners, we send what is most needed to specific people in need to Ukraine - not to logistics centers - where it is not clear to whom the aid ultimately goes. On our social media, we post thanks from specific people we support and let them know who donated their aid. Our photo - video footage is available to our PR partners at www.fundacja.org.pl

In addition, we help refugees on the ground in Lublin. We have already helped over 250 families - mainly mothers with children. We provide them with temporary shelter, feed and clothe them by passing on the collected aid to specific families.

How can you contribute?

Through our public collection no. 2022/677/OR.

- Donation of food or in-kind assistance.
- Donation of funds to a specific chosen cause (such as a pallet of food).
- Financially - by making a donation to one of our accounts - with the note: "Ukraine"

The management of the Foundation does not take any remuneration, and each, even the smallest support results into concrete help for the victims of war.
